WOLFX SIGNALS, PROTOTIPO AISLADO, SIN PRODUCCION

Funnel de cancelacion VIP Monthly

Diseno, copy y estados del flujo para Forex & Gold, Crypto y All Markets VIP Monthly (Active y pagadas, con o sin descuento).
Solo UI: la logica de cobro, cancelacion, accesos y Telegram la implementa Roberto.

Prototipo navegable	https://jaimeem9.github.io/wolfx-preview/cancel-1025c/ Arriba: **Scenario** cambia plan, estado, CopyTrading, temporizador, pagos; **Notes** ensena que dato llega del backend.
Codigo	El prototipo es un solo HTML sin dependencias: se descarga desde el mismo enlace (Guardar como) y de ahi se copian CSS, SVG y textos.
Capturas	Cada pantalla va en este PDF en PC (1280 px) y movil (390 px). Se ha comprobado en 6 anchos, de 360 a 1440.
Objetivo	Una experiencia limpia y navegable, al estilo Ubersuggest, lista para conectar a la logica real.
No hace	No cobra, no cancela, no toca Telegram, CRM ni checkout. Precios y fechas son fixtures ficticios.

Rutas

My Account → **1 Valor** → **2 Motivo** → **3 Revisar** → **4 Oferta $99** → acepta → **Checkout actual** → **B / C / C pending**

2 Motivo = Too expensive → salta la 3 → **4 Oferta $99**

4 rechaza → cancelacion REAL → **Poor results + elegible?** → si → **5 Platinum** → **D / E** si no → **A**

> Keep, la X y Escape cierran sin cambios en cualquier pantalla anterior a la cancelacion. On Hold, pagos pendientes, pending-cancel y otros productos siguen el flujo actual.

Marca: inventario real

TOKEN	VALOR	USO	ORIGEN
`--ink`	#14161d	Texto principal, boton neutro	/plans-lp/ en vivo
`--ink-soft`	#3a3f4c	Texto secundario	/plans-lp/
`--muted`	#5d6472	Ayudas y notas (algo mas oscuro que #6a7180 de plans-lp para AA sobre marfil)	ajustado
`--line`	#e7e9ee	Separadores	/plans-lp/
`--gold`	#c9a227	Borde Platinum, seleccion	/plans-lp/
`--gold-pill`	linear-gradient(180deg,#e8c860,#c9a227)	CTA principal de la oferta $99 (radio 10, alto 56; 52 en movil)	/plans-lp/ + checkout
`--gold-soft`	#fffaef	Fondo de seleccion	/plans-lp/
`--ivory`	#fbf8f1	Fondo de la banda de precio futuro y de la pagina	nuevo (pedido: marfil)
`--gold-ink`	#7a5c00	Texto dorado pequeno (eyebrow, producto) con AA	nuevo
`--green`	#15803d	Diferencias reales a favor, exito	derivado de #16a34a
`--red`	#b42318	Diferencias reales en contra, error	nuevo

Logo

El modal NO lleva logo (decision de Jaime, 24-10). El de la cabecera de My Account es solo el fondo del prototipo.

Tipografia

La de /plans-lp/: pila del sistema (-apple-system, Segoe UI, Roboto), titulares a 800. Cifras con `tabular-nums` en la misma fuente: ningun cero con punto.

Componentes

Modal centrado (max 560 px; 720 en oferta y Platinum), radio 20, sin scroll en ninguna pantalla. Pie fijo tipo Ubersuggest. Botones con radio 10. Iconos de la pantalla 1: los mismos SVG de linea de /plans-lp/ (trazo 2, color tinta, sin circulo). Casillas cuadradas de 24 px con radio 6. Zonas tactiles de 44 px minimo. El detalle de CSS de cada pieza esta en la pagina "Especificacion visual".

Accesibilidad

role=dialog con aria-modal y titulo; foco al titulo en cada pantalla; Tab atrapado dentro; Escape = cerrar sin cambios; foco visible de 3 px; reduced-motion respeta.

Promesas: verificadas y no verificadas

Verificadas (se usan)

DATO	FUENTE
Monthly $89 (Forex & Gold, Crypto) y $139 (All Markets); Lifetime $278 / $278 / $398	Pagina de planes en vivo, 23-10-2026
Copytrading Service y Trading Academy son de Lifetime, no del Monthly	Pagina de planes (insignia LIFETIME en la pestana mensual)
1:1 onboarding + mentoring en todos los planes	Pagina de planes, "Check everything included"
Funded Accounts Service aparece en todos los planes, y es un producto aparte de pago	Pagina de planes y catalogo de productos
Platinum es un upsell para quien ya es VIP; one entry, one TP, one SL; "we tell you when to open and when to close"; Forex Platinum suma Gold, Silver y Oil	Checkout actual y mensajes de venta de Telegram
Forex Platinum $89/mes, Crypto Platinum $69/mes	Precios confirmados por Jaime (13-09)
@wolfx_exclusive es el soporte de Platinum y CopyTrading	Confirmado por Jaime; es el CTA de la landing de copytrading
Funded accounts "in under 8 hours"	Dato dado por Jaime (25-10); las resenas de /plans-lp/ hablan de 5 y 7 horas
Platinum "Our most exclusive groups. Only accessible for VIP members."	Texto dado por Jaime (25-10)
CopyTrading "Our best service: our bot trades for you, no work needed."	Pedido por Jaime (25-10); en /plans-lp/: "Our private bot trades your account for you"

No verificadas (ocultas o con placeholder)

DATO	COMO QUEDA
Que el producto de $99 lleve lo mismo que el Lifetime estandar (Copytrading + Academy)	Oculto por defecto. Se ensena solo si el backend lo confirma (offer.benefits[])
Tachado $278 y "Save 64%" frente al $99	Solo si el backend marca el precio de referencia como verificado; si no, se ocultan
CopyTrading "conectado" y si depende del VIP	No conocemos un dato fiable en backend. Sin el, se usa la frase generica y la fila 2 de la pantalla 3 pasa a "VIP-only upgrades"
Cuando pierde Crypto quien pasa de All Markets a Forex & Gold Lifetime	Regla sin documentar. El diseno pinta el campo am_change.crypto_access_ends_on
Producto de trial Platinum	No existe producto trial. Forex & Gold: propuesto Forex Platinum VIP. Crypto: 2571 o 52372 (dos productos). All Markets: BLOCKED
Subida de precios	No hay subida fijada: solo "may be higher if you rejoin", sin cifra
Borrador en t.me/wolfx_exclusive?text=	Funciona en clientes recientes de Telegram; probar en iPhone y Android

Fuera a proposito

- "Zero risk strategy" y "boost their profits" (estan en /plans-lp/): no se usan
- Garantia de payouts en Funded accounts: no se promete
- Cifras de resenas, pips o rentabilidad: ninguna
- Que el descuento se pierda al volver: no se afirma

Especificacion visual

Frente a Ubersuggest

CRITERIO	COMO QUEDA
CTA Lifetime muy dominante	Si: dorado con degradado, ancho completo, 56 px, radio 10 px, pegado al precio; unico elemento con brillo de color.
Precio a la vista	Si: $99 a 60 px (44 a 360 px), primer elemento numerico; tachado y % solo si estan verificados.
Menos ruido	Si: 3 beneficios despues del boton, sin tablas ni textos tecnicos en la tarjeta.
Pie igual que Ubersuggest	Si: en todas las pantallas del flujo, Keep plan (contorno) + Continue cancellation (relleno) a la derecha y Contact support o Back a la izquierda (en movil sube a la cabecera). Ninguna pantalla hace scroll de 360x640 a 1440x800.
Pausas y errores claros	Si: carga del CTA, caducada, fallo, cripto pendiente y error de cancelacion, cada uno con su frase.
Diferencia buscada	Sin naranja ni marca Ubersuggest; el temporizador es real y de servidor, y All Markets explica la perdida de Crypto antes de pagar.

    "status": "paid | failed | pending_crypto",
    "entitlements_synced": false

Bloqueado o por decidir

TEMA	QUE FALTA
Producto de trial Platinum	No hay producto trial. Falta decidir cual se usa para Forex & Gold (propuesto Forex Platinum VIP 55083), cual para Crypto (2571 o 52372, el viejo "Small Caps") y si All Markets tiene alguno (hoy BLOCKED).
Platinum despues de cancelar el VIP	Platinum se presenta como "Our most exclusive groups. Only accessible for VIP members." El trial llega cuando el VIP ya esta cancelado: a partir del fin del periodo pagado tendria Platinum sin VIP. Hay que decidir si Platinum funciona solo.
Como se monta el $99	Los Lifetime son suscripcion de 0 $ cada 99 anos + cuota de alta, porque el plugin de Telegram da acceso mientras la suscripcion este activa. El $99 tiene que seguir esa estructura (producto nuevo o cupon sobre 1999/2001). El snippet del checkout detecta Lifetime por esa estructura y pinta su propio tachado (399 en Forex Lifetime): tiene que coincidir con lo que dice la tarjeta o se contradicen.
Crypto en All Markets	Cuando se corta Crypto al pasar a Forex & Gold Lifetime: al pagar o al fin del periodo pagado. El diseno solo pinta la fecha que mande el backend.
CopyTrading conectado	No conocemos un campo que diga si la cuenta esta conectada ni si depende del VIP. Sin el, el diseno usa el texto generico.
Casillas de la pantalla 3	Decidido por Jaime (24-10): las tres son obligatorias para seguir cancelando, como en Ubersuggest.
Add Crypto Lifetime	Pendiente de aprobacion. El banner no tiene precio ni accion.

QA hecho

- capturar.mjs: 294 capturas (49 escenas x 360, 390, 430, 768, 1280, 1440) al alto visible real del navegador (360x640, 390x664...), 0 fallos: ninguna pantalla con scroll, sin desborde horizontal, controles tactiles >= 44 px, CTA de $99 dentro de la primera pantalla.
- recorrer.mjs: 43 comprobaciones a clic, todas OK: ramas de navegacion, las 4 rutas de la pantalla 2 (submotivo obligatorio, cambiar de motivo lo limpia, Other obligatorio y max 300, Back conserva, Too expensive directo a $99), las tres casillas obligatorias, Platinum solo tras Poor results, All Markets bloquea el CTA sin la casilla, temporizador que no se reinicia, doble clic sin doble checkout, oferta caducada sin Lifetime.
- Enlace "Book a review now": una sola linea medida de 360 a 1440 px.
- Revisado por dos lentes (tecnica y de criterio): 0 fallos abiertos; 0 errores de consola en la preview publica.
- Abierto a proposito: el estado sale de la URL para poder enlazar cada captura (en produccion el exito solo llega del servidor), y el temporizador del prototipo es por pestana (en produccion expires_at lo fija el servidor).
